

DEMO DIVISION

At AOK State Championships

Who can compete in the DEMO Division?

If you competed this year in the Demo Division or a kata division, but did not qualify in the top 5 or as a WILDCARD and are 12 years old or youngeryou can enter the DEMO division.

Why are we doing this?

We realize that we have a lot of families that do tournaments together as a family. Sometimes we have siblings, one might qualify for State but the other one doesn't and it can make them feel left out. It can be hard on the parents "explaining" as to why the other one can't compete too.

Here is your answer.....

This division was designed for those siblings that might not have qualified in the top 5 or as a Wildcard for state but want to be able to be a part of state because brother or sister gets to compete. They will compete with others just like them and receive a special award just for this division to take home making them feel like they were not left out and were a part of the state finals.

How do we register for this division?

Just check the appropriate box on the registration form "DEMO ()" and register just like you would for someone that is ranked. We will do the rest.
